

MOUNTING OPTIONS

These custom designed brackets when integrated with Norbco 60" Panel Fans provide 100% adjustability enabling the operator to maximize air flow over the cows.

Feed Line Post Mount

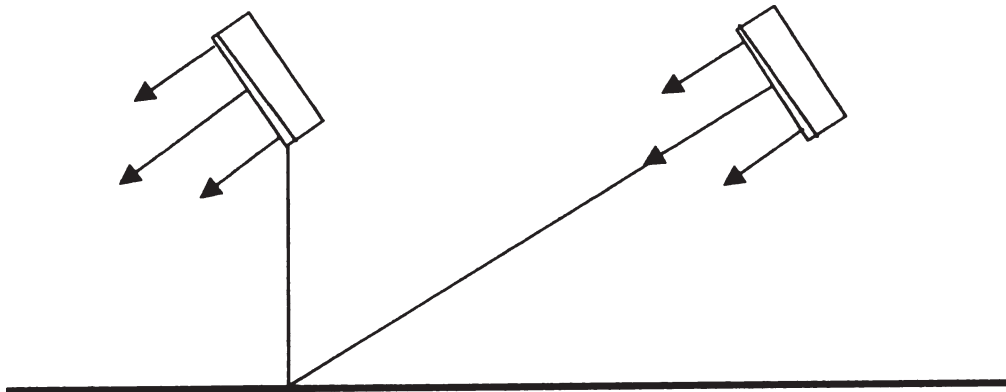

Wood or Steel Column

Notes: Panel fans mount to bracket located near center of fan.
Motor can be above or below the horizontal arm.
Panel fans can also be hung by chains or cable.

Fan Placement Suggestions:

- Mount 60" Fans approximately 50' apart
- Mount fans 8-10' above the floor or cow platform
- Angle fans (approx. 30°) so that air is directed toward animals
